The tide has turned on AUD and CHF / AED exchange rate

In the first quarter of the year we were lucky that the exchange rate helped us to import from Australia and Switzerland cheaper than in 2008. Unfortunately in the second quarter things have changed and with a weakening USD the exchange rate has moved strongly against us. This has an effect on all products imported from Australia and Switzerland. As always we will keep an eye on the exchange rate and as soon as we can we will decrease the prices to you again.
